Camera Hire: We have a GoPro video/still cameras in underwater housings \$79 per day. They come with 8GB memory card for you to take your images/video home with you. If you intend to shoot lots of video in 4k. We suggest you purchase a larger memory card 32GB or even 64GB.

Keep Warm & Protected: If you suffer from the cold or prefer to have your own personal under garment, we have a variety at our shop.

Seasickness? If you are not sure prevention is better than cure. We recommend purchasing in advance **TRAVACALM (Red&White box)**, a non drowsy medication available at most chemists in Australia. Take medication 30 minutes before boat departure (otherwise medication won't work). Or if you are a person that suffers from travel sickness maybe best to consider starting medication the night before.
